**Ryan Cunningham**

Co-Founder &amp; Partner at SHACK15 Ventures | ex-Uber, AI Fund

## Education

### Stanford University

Graduate Certificate, Artificial Intelligence  
2021

The Artificial Intelligence Graduate Program is a part-time program for working professionals to gain both foundational and advanced skills in principles and technologies that underlie AI. With courses available robotics, vision, NLP, and more, classes accrue full Stanford credit and can be counted towards a Master's degree if desired.

CS224n: Natural Language Processing with Deep Learning (w/ Prof. Chris Manning)

- Studied historical and contemporary deep learning models and their application to natural language processing (NLP) tasks.
- Final Project: Model Compression for Chinese-English Neural Machine Translation

CS224u: Natural Language Understanding (w/ Prof. Christopher Potts)

- A project-oriented deep-dive into common commercial natural language understanding (NLU) tasks (word relatedness, sentiment classification, relation extraction, etc.)
- Final Project: Efficient Compression of Natural Language Understanding Tasks (Sentiment Analysis, Reading Comprehension)

### Harvard Business School Executive Education

Leadership  
2017 - 2018

**Georgetown University**

Bachelors of Science in Business Administration, Finance

2010 - 2014

Graduated with honors

- Major: Finance
- Minor: Economics, Computer Science
- Core Subjects: China Studies, Information Economics, Information Warfare

Capstone Projects:

- Information Warfare: Applied Social Graph Analysis of the 2012 LulzSec-Sony Hack
- Business Ethics: Autonomous Contract Execution via Blockchain/Darknet
